Rocky Mountain Power Evaporative Cooling Direct & Indirect Incentive Form

DFCM strives to incorporate energy efficiency into all projects to provide the lowest cost for building operations to the state of Utah. The evaporative cooling unit/pad will meet the minimum Rocky Mountain Power efficiencies for incentives as outlined in the specifications. **All other bids for different brands of equipment will meet the RMP requirements or what was specified on the plans.** The selected contractor is responsible for providing all supporting documentation to DFCM to collect all rebates and incentives applicable. Please email all documentation to Chris Ottley Energy Program Specialist (Contact details below).

1. Manufactures cut sheets.
2. Fill out information below.

Installation Date	
Dealer Name	
Manufacturer	
Model Number	
Serial Number	
Design Air Flow (CFM) Or ISR1 CFM	
Total Static Pressure (H2O)	
Supply Fan Size (HP)	
Building Sq Ft.	
Mechanical Schedule (operation hours)
