

**There is no standard DFCM Steep Slope Roofing Warranty.**

The following guidelines should be used on Steep Slope Roofing projects.

- 1- Minimum of a Manufacturer 10-year full system roofing warranty. This warranty should cover any leaks or material failure including labor.
- 2- DFCM 5-year Contractor warranty is required on all roofing projects.
- 3- Minimum of a 20-year material warranty should be issued on Steep Slope roofing projects.
- 4- All steep slope roofs should have a wind warranty that exceeds the typical wind speed in the project location.
